

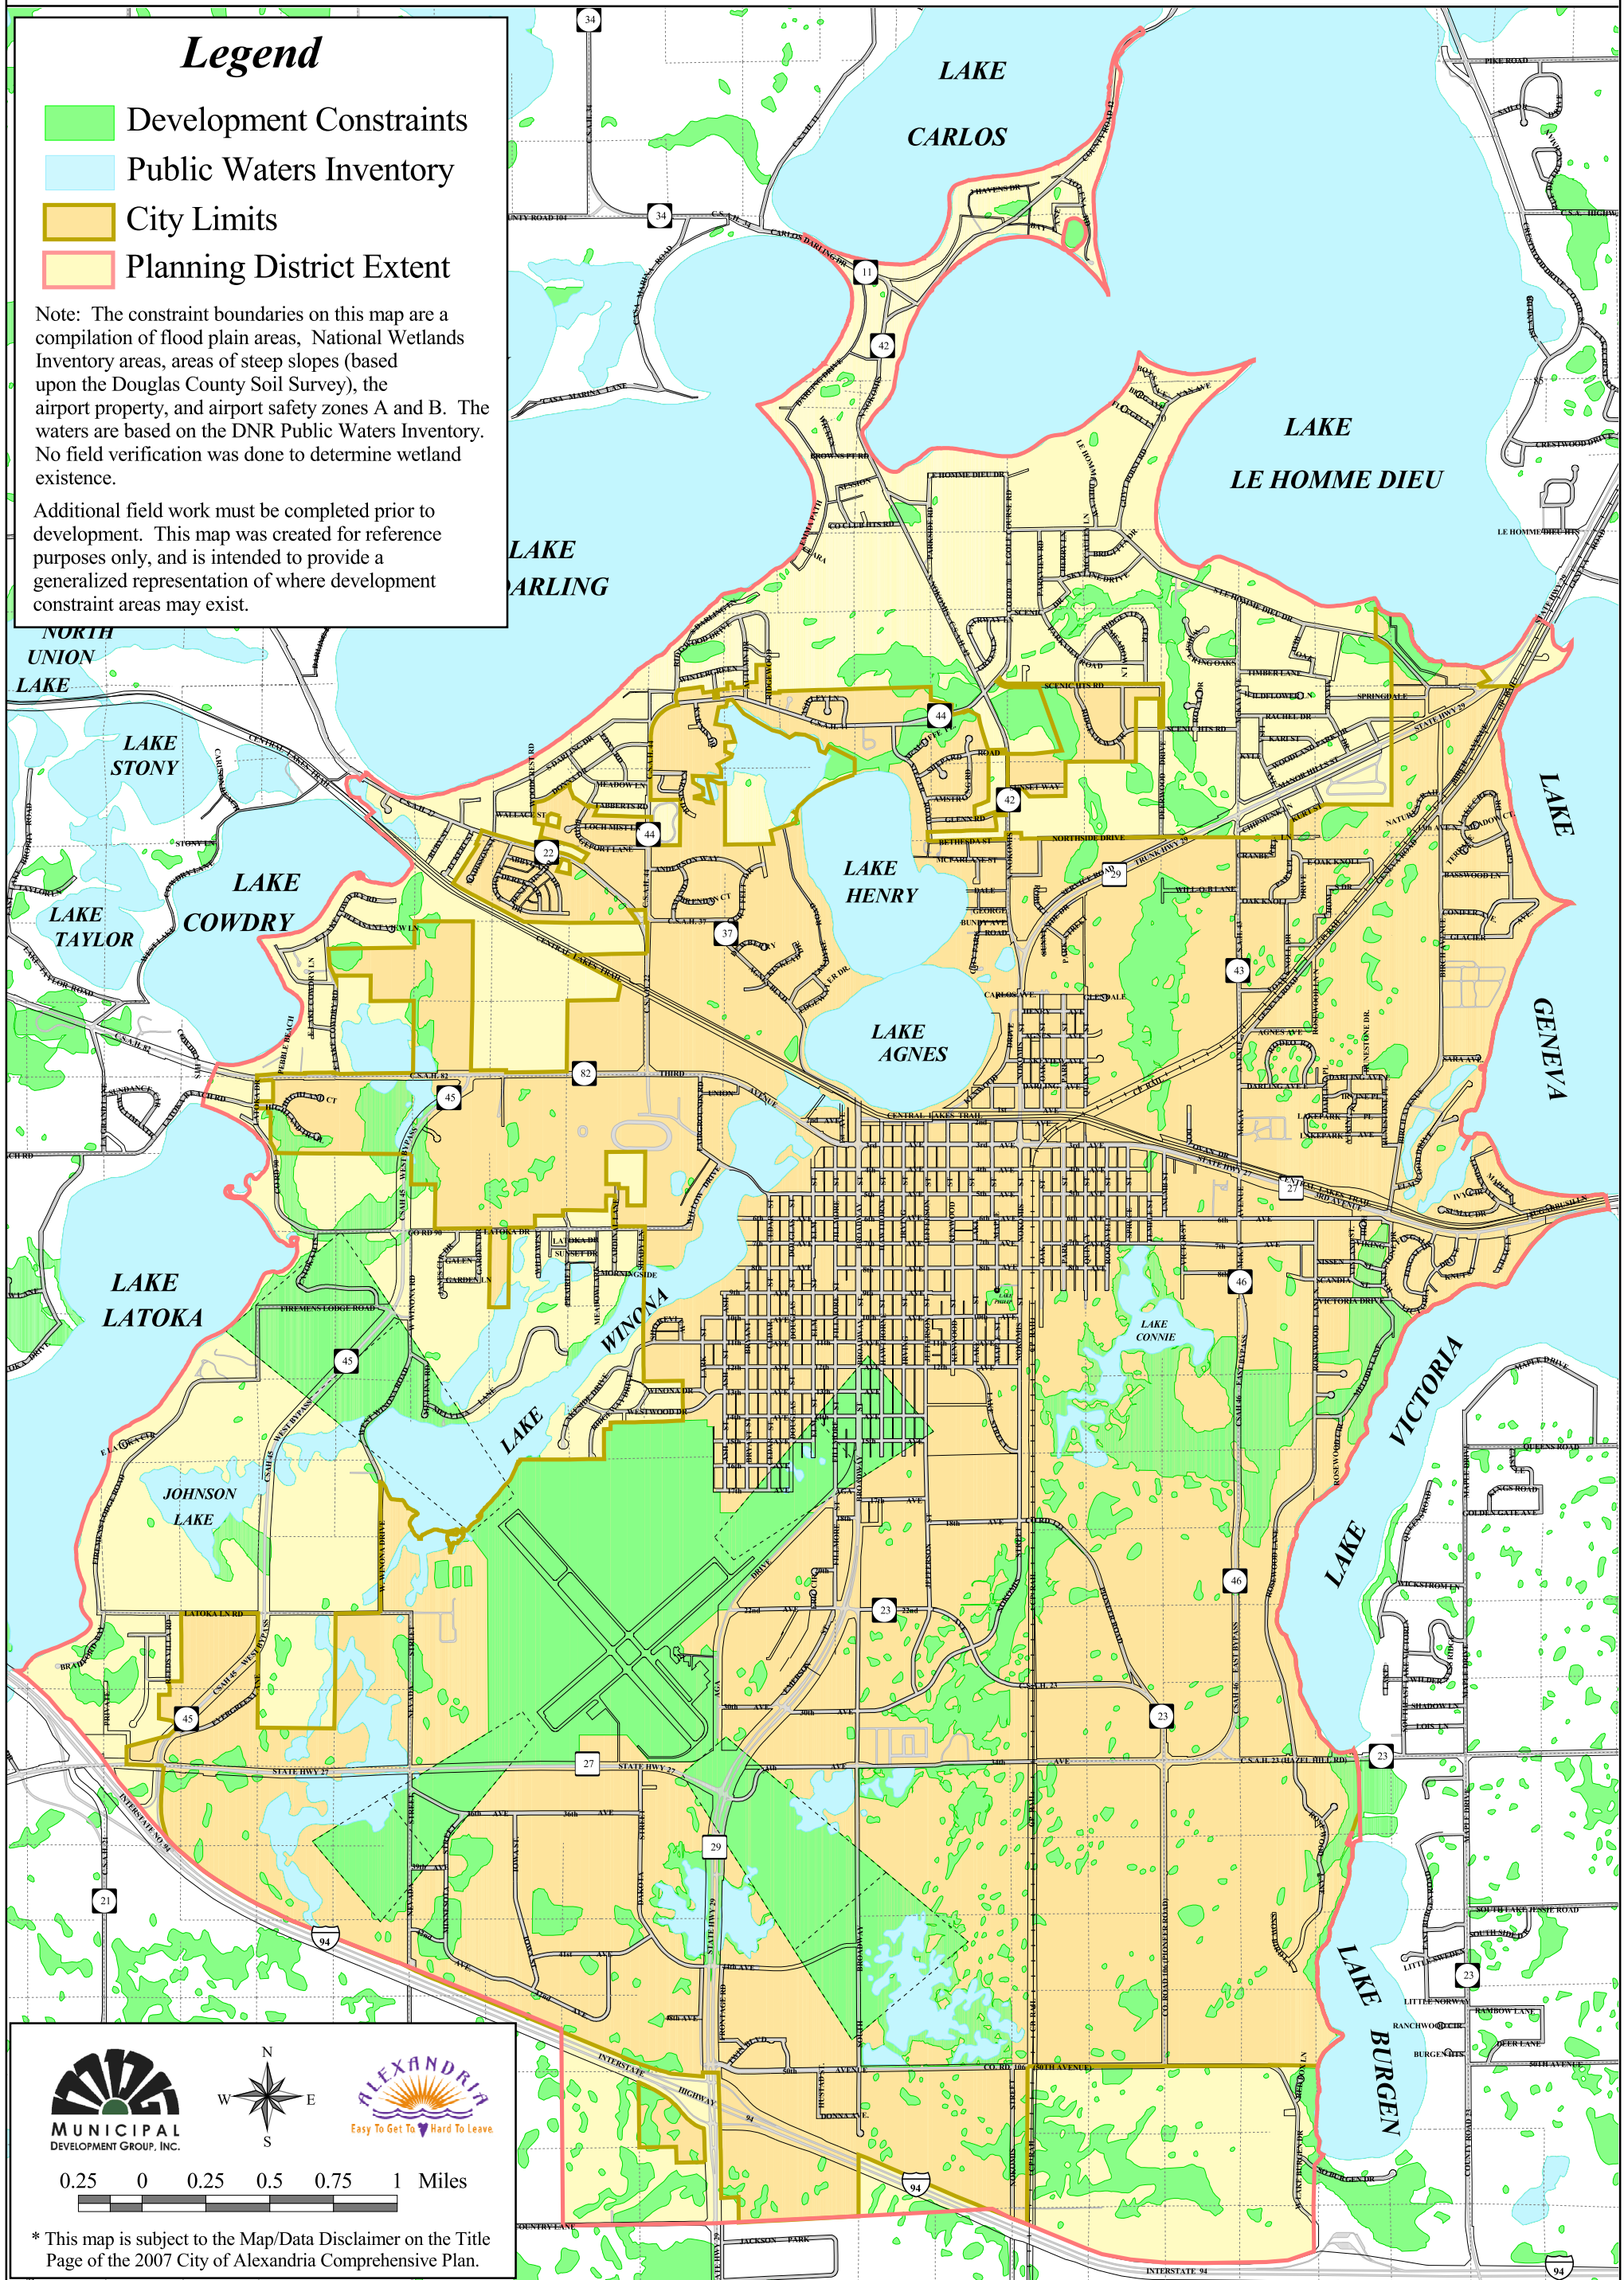

Map 4-6, Development Constraints

Legend

-  Development Constraints
-  Public Waters Inventory
-  City Limits
-  Planning District Extent

Note: The constraint boundaries on this map are a compilation of flood plain areas, National Wetlands Inventory areas, areas of steep slopes (based upon the Douglas County Soil Survey), the airport property, and airport safety zones A and B. The waters are based on the DNR Public Waters Inventory. No field verification was done to determine wetland existence.

Additional field work must be completed prior to development. This map was created for reference purposes only, and is intended to provide a generalized representation of where development constraint areas may exist.
