Section 9.03. **Tobacco and Electronic Delivery Device Use in Public Parks**

Subd. 1. **Purpose.** The City of Alexandria is committed to providing safe and healthy environments. Tobacco use is a major cause of preventable disease and death. Electronic delivery devices, more commonly referred to as electronic cigarettes or e-cigarettes, closely resemble and mimic the act of smoking. Their use in locations where smoking is prohibited creates concern and confusion. The City of Alexandria believes the use of tobacco products, including electronic delivery devices, in its parks is detrimental to the health and safety of its community.

Subd. 2. **Definitions.**

A. All Times. "All times" means 24 hours a day, seven days a week.

B. Electronic Delivery Device. "Electronic delivery device" means any product containing or delivering nicotine, lobelia, or any other substance intended for human consumption that can be used by a person to stimulate smoking in the delivery of nicotine or any other substance through inhalation of vapor from the product. The term includes any such devices, whether they are manufactured, distributed, marketed or sold as e-cigarettes, e-cigars, e-pipes, or under any other product name or descriptor.

C. Public Park. "Public Park" means all parks, trails, and open space controlled by the City of Alexandria.

D. Smoking. "Smoking" means inhaling or exhaling from any lighted or heated cigar, cigarette, pipe, or any other tobacco or plant product, or inhaling or exhaling aerosol or vapor from any electronic delivery device. Smoking shall include being in possession of a lighted or heated cigar, cigarette, pipe, or any other lighted or heated tobacco or plant product intended for inhalation, or an electronic delivery device that is turned on or is otherwise activated.

E. Tobacco Product. "Tobacco product" means any product containing, made, or derived from tobacco that is intended for human consumption, whether chewed, smoked, absorbed, dissolved, inhaled, snorted, sniffed, or ingested by any other means, or any component, part, or accessory of a tobacco product, including but not limited to cigarettes, cigars and other smoking tobacco; snuff and other chewing tobaccos; and any other kinds and forms of tobacco.

F. Tobacco Use. "Tobacco Use" means the act of smoking or the use of any tobacco product in any form or manner.

Subd 3. **Tobacco Use and Electronic Delivery Device Use Prohibited.** The sale and use of tobacco products and electronic delivery devices are prohibited at all times in or on all public parks the City of Alexandria has the authority to control regardless of location, unless authorized in specific areas by the City Council.

Subd. 4. **Enforcement.** Any person found guilty of violating this section shall be guilty of a misdemeanor.

Subd. 5. **Severability and Savings Clause.** If any section or portion of this ordinance shall be found unconstitutional or otherwise invalid or unenforceable by a court of competent jurisdiction, that finding shall not serve as invalidation or affect the validity and enforceability of any other section or provision of this ordinance.

**Section 9.04. Use of Electronic Delivery Devices**

Subd. 1. **Purpose and Intent.** Electronic delivery devices, commonly referred to as electronic cigarettes, or e-cigarettes, closely resemble and purposefully mimic the act of smoking by having users inhale vaporized liquid nicotine or other substances created by heat through an electronic ignition system. After testing a number of e-cigarettes from two leading manufacturers, the Food and Drug Administration (FDA) determined that various samples tested contained not only nicotine but also detectable levels of known carcinogens and toxic chemicals, including tobacco-specific nitrosamines and diethylene glycol, a toxic chemical used in antifreeze. The FDA's testing also suggested that quality control processes used to manufacture these products are inconsistent or non-existent. ("Summary of results: Laboratory analysis of electronic cigarettes conducted by FDA. "Food and Drug Administration (FDA), July 22, 2009; <http://www.fda.gov.NewsEvents/PublicHealthFocus/ucml73146.htm>) Electronic delivery devices produce a vapor of undetermined and potentially harmful substances, which may appear similar to smoke emitted by traditional tobacco products. Their use in work places and public places where smoking of traditional tobacco products is prohibited creates concern and confusion and leads to difficulties in enforcing the smoking prohibitions.

Subd. 2. **Definitions.** Except as may otherwise be provided or clearly implied by context, all terms shall be given their commonly accepted definitions. For the purposes of this Ordinance, the following definitions shall apply:

A. **Electronic Delivery Device.** Any product containing or delivering nicotine, lobelia, or any other substance intended for human consumption that can be used by a person to simulate smoking in the delivery of nicotine or any other substance through inhalation of vapor from the product. The term includes any such devices, whether they are manufactured, distributed, marketed or sold as e-cigarettes, e-cigars, e-pipes, or under any other product name or descriptor.

B. **Use.** The inhaling or exhaling of aerosol or vapor from any electronic delivery device. Use shall also mean being in possession of an electronic delivery device that is turned on or otherwise activated.

Subd. 3. **Prohibition.** The use of any electronic delivery device is prohibited anywhere smoking is prohibited by the Minnesota Clean Indoor Air Act, as it may be amended from time to time.

Subd. 4. **Other Applicable Laws.** This ordinance is intended to complement the Minnesota Clean Indoor Air Act, Minnesota Statutes, Sections 144.411 to 14.417 as it may be amended from time to time. Nothing in this Ordinance authorizes smoking or the use of an electronic delivery device in any location that is regulated by other applicable laws or regulations.

Subd. 5. **Violation and Penalites.**

A. Use where prohibited. It is a violation of this Ordinance for any person to use an electronic delivery device in an area where prohibited by this Ordinance, or to use an electronic delivery device in an area where prohibited by a private policy established by the proprietor or other person in charge of the area.

B. Proprietors. It is a violation of this Ordinance for the proprietor, person, or entity that owns, leases, manages, operates, or otherwise controls the use of an area in which the use of an electronic delivery devices is prohibited under this Ordinance to knowingly fail to comply with the provisions of this Ordinance.

C. Penalties. A person who violates any provision of this Ordinance is guilty of a misdemeanor. Each day of violation constitutes a separate offense.
